

Event ConnecTD — Homepage Redesign Docs

Based on whiteboard wireframe session. One section per card for design prompting.

Brand tokens for all sections:

- Primary Navy: #185FA5
 - Dark Navy: #0D2137
 - Teal (accent): #1D9E75
 - Background: White #FFFFFF / Light gray #F7F9FC
 - Typography: Clean, professional sans-serif; hero headlines bold/heavy weight
-

Section 1 — Navigation Bar

Purpose: Anchor the brand and make the primary action always accessible.

Layout: Full-width horizontal bar. Logo left-aligned. Nav links center or right. Sticky on scroll.

Content:

- Logo: “Event ConnecTD” wordmark (with teal “TD” treatment)
- Nav links: How It Works • For Companies • For Travel Directors • Pricing
- Right CTA button: “**Submit an RFP**” — teal fill, white text, rounded

Design notes:

- Thin 1px bottom border in light gray to separate from hero
 - On scroll: add subtle drop shadow and white background if hero is image-based
 - Mobile: hamburger collapse
-

Section 2 — Hero

Purpose: Immediately answer “What is this?” and get the visitor to submit an RFP. This

is the thesis of the page.

Headline (primary messaging from whiteboard):

"No More Random TDs. We're Part of Your Team."

Subheadline:

Event ConnectTD connects corporate event planners and incentive travel companies with pre-vetted, experienced Travel Directors — faster than LinkedIn, cheaper than a staffing agency.

Primary CTA: Submit Your RFP → (teal button, prominent) **Secondary CTA:** Browse Travel Directors (ghost/outline button)

Layout: Two-column split.

- Left column: Headline, subhead, CTAs, small trust signal (e.g., "18% finder's fee — vs. 20–22% industry standard")
- Right column: Hero image — a professional event TD in action (conference floor, incentive trip backdrop, or group logistics setting)

Trust bar below hero (thin strip):

Trusted by corporate event planners across the MICE industry · Vetted TD network · RFP turnaround in 48 hours

Design notes:

- Hero background: Dark navy #0D2137 with white headline text — high contrast
- Teal used as accent on key phrase ("No More Random TDs" underline or highlight)
- Image should feel real and human, not stock-generic
- Mobile: stack vertically, image below headline

Section 3 — Service Category Tabs ("RFP | P.S. | W.M.")

Purpose: Show clients the three ways they can engage — the types of TD support available. Differentiates the platform and educates visitors on scope. The "We Manage" badge communicates this is a managed marketplace, not a raw directory.

Section eyebrow label: WHAT WE HELP YOU STAFF

Three Tab Cards:

Tab 1 — RFP Support

Label: RFP **Headline:** Request for Proposal Management **Body:** Need a TD to manage vendor coordination and logistics documentation? We match you with the right specialist for your program scope. **Icon:** Document/clipboard icon

Tab 2 — Program Specialists

Label: P.S. **Headline:** On-Site Program Specialists **Body:** On-the-ground execution experts who manage attendee experiences, hotel blocks, and day-of operations for incentive trips and conferences. **Icon:** People/event icon

Tab 3 — Week-Of Management

Label: W.M. **Headline:** Week-Of Management TDs **Body:** Dedicated Travel Directors who own the final week — arrivals, transfers, room blocks, and everything in between so your team can focus on the client. **Icon:** Calendar/checklist icon

“We Manage” Callout Badge (floats right of the tab row per wireframe):

✦ We Manage Highlighted TDs Every TD in our network is reviewed, referenced, and hand-matched to your program.

Layout: Three equal-width cards in a horizontal row, with the “We Manage” callout badge styled as a navy pill/badge floating top-right of the card group.

Design notes:

- Cards: white background, 1px border, subtle box shadow, teal left-border accent on hover
- Active/selected tab state in navy with white text
- Badge: teal background, white text, subtle checkmark icon
- Mobile: horizontal scroll or vertical stack

Section 4 — Who We Are + Why

Purpose: Brief credibility section that humanizes the company and answers “why not just use LinkedIn?” Split into two natural sub-sections per wireframe: “Who We Are” left, “Why” right (separated by a visual divider).

Layout: Two-column, equal width. Thin horizontal rule or wavy line divider between them (matches whiteboard’s ~~~ notation).

Left Column — Who We Are

Eyebrow: WHO WE ARE **Copy:**

Event ConnectTD is a two-sided marketplace purpose-built for the MICE industry. We exist to eliminate the 10–20 hours planners lose sourcing Travel Directors through word-of-mouth and LinkedIn — and to give great TDs the visibility they deserve.

We're not a staffing agency. We don't bill your TD's labor. We simply connect the right people and charge an 18% finder's fee — only on TD labor cost — billed separately after placement.

Right Column — Why Event ConnectTD

Eyebrow: WHY IT MATTERS **Copy:**

The status quo is broken. Planners rely on whoever they happened to work with before. Great TDs go undiscovered. Programs suffer for it.

We built the infrastructure that the industry was missing: a vetted network, a structured RFP process, and a match guarantee — so you never send an RFP into the void again.

Design notes:

- Light gray background #F7F9FC to visually separate this section from the hero
- Wavy teal divider line between the two columns (references whiteboard sketch)
- No cards — clean prose layout with generous white space
- Optional: small founder/team photo or brand mark in the corner

Section 5 — Three Value Props + Platform Preview

Purpose: The core “pitch” section from the whiteboard — answers the three buyer questions: *How much do they save? Why choose Event ConnectTD? What exactly do they get?* Paired with a visual of the platform to build product confidence.

Layout: Left column = three value prop rows. Right column = platform screenshot or stylized phone/desktop mockup.

Section headline:

Built for planners who can't afford to guess.

Three Value Props (O~ bullets from whiteboard):

Value Prop 1 — How Much They Save

Icon: Dollar sign / savings chart **Headline:** Save Time and Money on Every Program

Body: Our 18% finder's fee sits below the 20–22% industry standard — and you recover the 10–20 hours you'd spend sourcing on your own. The average client saves \$3,200+ in opportunity cost per event. **CTA link:** `See your savings →` (links to `/savings-calculator`)

Value Prop 2 — Why Choose Event ConnectD

Icon: Verified badge / checkmark **Headline:** Every TD is Vetted. No Exceptions. **Body:** All Travel Directors on our platform submit past program references and are reviewed before listing. You only see qualified candidates — not a random inbox dump.

Value Prop 3 — What You Get

Icon: Workflow / connected nodes **Headline:** A Structured Process, Not a Referral Hotline **Body:** Submit an RFP, receive curated TD candidates within 48 hours, select your match, and go. We handle introductions. You handle the program.

Right Column — Platform Visual:

- Stylized screenshot of the Event ConnectD connector tool / TD profile cards
- Or: a clean device mockup (laptop/tablet) showing the RFP submission flow
- Teal accent border on device frame

Design notes:

- Section background: white
- Value prop rows separated by thin dividers, not cards
- Icons: teal, outline style, 24–28px
- Platform visual: slight shadow and tilt (perspective/3D) to feel premium
- Mobile: value props stack, mockup appears below

Section 6 — Savings Calculator + Top Value Add

Purpose: Interactive proof of value. The calculator already exists at `/savings-calculator` and should be embedded or linked here. The “Top Value Add” callout (from

whiteboard) is a supporting copy block that frames the calculator and reinforces ROI before the visitor calculates.

Layout: Two-column. Left = image or illustrated graphic + “Top Value Add” copy block. Right = embedded calculator widget or preview of it.

Left Column — Top Value Add Copy

Eyebrow: THE #1 REASON PLANNERS SWITCH **Headline:**

The real cost isn’t our fee. It’s what you lose when sourcing goes wrong.

Body:

A mis-matched TD, a frantic last-minute replacement, or hours lost chasing references — that’s the hidden cost of the status quo. Event ConnecTD planners consistently report the biggest value add isn’t just the TD we find — it’s the hours, stress, and scramble we eliminate.

Supporting stat callout (bold/large):

“10–20 hours saved per event sourcing cycle”

Right Column — Calculator Widget

Eyebrow: CALCULATE YOUR SAVINGS **Headline:** What could Event ConnecTD save your team? **Body (brief):** Answer four quick questions and see your estimated savings in time and cost. **Embedded:** /savings-calculator component (the four-question quiz + Chart.js bar chart output) **CTA below:** Submit Your RFP After You See the Numbers →

Design notes:

- Section background: dark navy #0D2137 — high contrast, feels like a “reveal” moment after scrolling through lighter sections
 - All text: white
 - Calculator card: white card on dark background, teal accents on inputs and results bar
 - Supporting stat: oversized teal number treatment
 - Image/graphic left: abstract event graphic or stylized city/conference backdrop in muted navy tones
-

Section 7 — How It Works (Right-side numbered list from whiteboard)

Purpose: Reduce friction for first-time visitors by showing exactly what happens after they click “Submit RFP.” The whiteboard shows three numbered steps on the right side.

Section headline:

From RFP to matched TD in 48 hours.

Three Steps:

Step 1 — Submit Your RFP

Number: 01 **Headline:** Tell Us About Your Program **Body:** Fill out a simple RFP with your event dates, destination, group size, and TD requirements. Takes less than 5 minutes. **Visual:** RFP form icon or screenshot

Step 2 — Personalized Matching

Number: 02 **Headline:** We Match You to the Right TD **Body:** Our team reviews your RFP and surfaces curated, pre-vetted Travel Director candidates within 48 hours — not a generic list, a real match. **Visual:** Profile card / matching graphic

Step 3 — Confirm and Go

Number: 03 **Headline:** Review, Select, and Lock It In **Body:** Review your TD candidates, connect directly, and confirm your match. You pay your TD directly. We invoice only our 18% finder’s fee separately. **Visual:** Confirmation / handshake icon

Layout: Horizontal three-step layout with connected arrow/line between steps. Or vertical timeline for mobile.

Design notes:

- Background: light gray #F7F9FC
 - Step numbers: large, teal, slightly transparent — used as background texture element behind each card
 - Arrow connectors between steps in teal
 - Bottom CTA button: Submit Your RFP → (teal, full-width on mobile)
-

Section 8 — Footer CTA / Closing Banner

Purpose: Catch the visitors who scrolled to the bottom but haven't converted. Last chance before footer.

Layout: Full-width banner, centered content.

Headline:

Ready to stop searching and start staffing?

Subheadline:

Send your RFP today. We'll have curated TD candidates in your inbox within 48 hours.

CTA Button: Submit Your RFP (white text, teal background, large) **Secondary link:**

Questions? Talk to the team →

Design notes:

- Background: teal #1D9E75 — the warmest, most action-oriented color in the palette
 - White text throughout
 - Subtle texture or wave graphic behind text
 - No images — pure typography and CTA
-

Section 9 — Footer

Content:

- Logo + one-line tagline: *"The B2B marketplace for Travel Directors."*
- Column 1: Company — About, How It Works, Pricing, Blog
- Column 2: For Clients — Submit RFP, Savings Calculator, Case Studies
- Column 3: For TDs — Join the Network, TD Resources
- Column 4: Contact — hello@eventconnectd.com, LinkedIn
- Bottom bar: © 2025 Event ConnectD LLC · Privacy Policy · Terms of Service
- Disclaimer: *Event ConnectD does not handle TD labor billing. Clients pay Travel Directors directly.*

Design notes:

- Dark navy #0D2137 background, white text
 - Teal used only for hover states on links
 - Billing disclaimer in small italic text, clearly visible
-

Prompt Strategy Notes (for Claude Design sessions)

When prompting for each section individually:

1. **Always lead with brand context:** "Event ConnecTD is a B2B marketplace for Travel Directors in the MICE industry. Brand colors: navy #185FA5, dark navy #0D2137, teal #1D9E75."
2. **Specify the section number and purpose** from this doc first
3. **Paste the Content block verbatim** as the copy to use
4. **End with Design Notes** as constraints
5. **Request desktop + mobile view** if the tool supports it
6. Keep section prompts isolated — one prompt per section for cleaner output

Priority order for design sessions:

1. Hero (Section 2) — most important, sets the visual tone
2. How It Works (Section 7) — high-converting, needs to be clear
3. Value Props + Platform Preview (Section 5) — central pitch
4. Savings Calculator (Section 6) — interactive proof
5. Service Category Tabs (Section 3) — educational
6. All others to follow
